A moving picture stream generation apparatus includes: a trick-play information generation unit TricPlay for generating supplemental information on a random access unit basis, the supplemental information being referred to at the time of playback of each random access Unit and each random access unit including one or more pictures; and a variable length coding unit VLC for generating a stream including the generated supplemental information and the one or more pictures by adding the supplemental information to each corresponding random access unit...".

Allowable Subject Matter

2. Claims 37-43 are allowed.

Independent claims 37, 38, 39, 40, 41, 42, 43, are directed towards moving picture stream generating apparatus, method, decoding apparatus, decoding method, a computer readable medium, moving picture decoding system, and a non transitory recording medium which recites as in the streaming generating apparatus "...wherein the picture type information of the respective pictures includes at least: an I- picture on which intra-coding is performed; a P-picture on which inter-coding is performed with reference to a picture per block which is a basic unit in coding; a first B-picture on which inter- coding is performed with reference to two pictures per block which is a basic unit in coding, and which can be referred to by a picture; and a second B-picture on which inter-coding is performed with reference to two pictures per block which is a basic unit in coding, and which cannot be referred to by any other pictures, wherein the picture structure information of the respective pictures includes information indicating whether the picture structure of each picture is a field structure, a first frame structure, or a second frame structure, wherein the first frame structure is for displaying the picture using two display fields, and wherein the second frame structure is for displaying the picture using three display fields by repeatedly displaying the first display field at the time of using 3-2 pull down..." which are features that are not anticipated nor obvious over the art of record.
